## FlexC™

Vulcanized Collet Systems for CNC Lathes

- Collet head concentricity within .0002" (.005mm) round smooth
- ±.020" (.5mm) gripping range to accommodate bar stock variation
- Direct replacements for Hainbuch, MicroCentric and some other brands
- Part capacities from 1/4" to 2 9/16" (6 to 65mm)
- 3 chuck styles for A2 and 170MM sizes:
  - Pull-back Thru-Hole
  - Pull-back Thru-Hole/Dead-Length with stop
  - Dead-Length push-to-close

Turn your old vulcanized collet heads into cash\*\*

\* Free product offers cannot be combined with trade-ins and discounts Custom collet heads are not included in free product offer.

\*\* Ship us any used vulcanized collet heads and you'll receive 40% off the cost of an equal number of FlexC collet heads for CNC lathes. Offer expires 3/31/10, excludes previous sales and is valid in North America only. No limit on quantity. Marks indicated with © and ™ are trademarks of Hardinge Inc. DM-1027D © Hardinge Inc. 2009
